

HONDA CRV (2001 to 2004)

How To Remove a Honda CRV Car Stereo (2001 To 2004)

Tools Required

Screwdriver

OEM Stereo Image:

Comments:

Nice and easy

Step 1

Under the center console there are 2 screws. Undo these.

Step 2

Now remove the center console. The top half is on clips.

Step 3

You should now have access to the screws holding the radio in place.

Step 4

Remove radio and disconnect aerial and ISO wiring plugs from back.
