

VOLKSWAGON GOLF R32, PLUS, GTI (2005 ONWARDS)

How To Remove a Volkswagon Golf R32, Plus, GTi Car Stereo (2005 Onwards Models)

Tools Required

Screwdriver

OEM Stereo Image:

Comments:

Nice and easy

Step 1

First remove the top tray using your T20 Torx screwdriver.

Step 2

Remove the next single screw.

Step 3

This will allow you to lift up the top console which is on pressure clips.

Step 4

You can now remove the lower console which is also on pressure clips.

Step 5

This will allow you to remove the screws on each side holding the radio in place.

Step 6

Remove radio and disconnect aerial and ISO wiring plugs from back.
